

QUSAY ALBWAYZEH

Software Engineering Team Leader

Experienced software engineer with a passion for developing innovative programs that expedite the efficiency and effectiveness of organizational success. Well-versed in technology and writing code to create systems that are reliable and user-friendly. Highly experienced in all aspects of the software development lifecycle and end-to-end project management. Confident communicator, strategic thinker, and innovative creator to develop software that is customized to meet a company's organizational needs, and further success.

Jordan - Amman

Education

The Hashemite University

Computer Science

2011 - 2015

Experience

Team Leader \ Senior Software Engineer

Estarta Solutions

SEP 2021 - Present

Senior Web Applications Developer

Ministry of Higher Education and Scientific Research

JAN 2018 - SEP 2021

Web Developer

ATN Network

AUG 2017 - JAN 2018

Web Applications Developer

Knowledge Horizon

JUL 2015 - JUL 2017

Expertise

- Designed and implemented software solutions by leveraging infrastructure and technologies to meet and exceed client requirements, improving system performance and user satisfaction.
- Developed and deployed .NET Web Services and APIs, enabling seamless integration between systems and enhancing data flow across platforms, ensuring smooth communication between different systems.
- Designed and optimized databases by writing complex queries, stored procedures (SPs), and SQL Jobs, improving data retrieval speeds and system reliability.
- Built and deployed APIs using Azure Portal and Azure Functions, enabling scalable and serverless solutions for clients.
- Creating desktop and Windows applications, providing intuitive and user-friendly interfaces for end-users.
- Managed Azure resources effectively, including creating, configuring, and optimizing cloud infrastructure to support application scalability and cost-efficiency.
- Ensured application performance and quality by implementing best practices in coding, testing, and deployment.

Skills

- ASP.NET Core
- ASP.NET Web Forms
- MVC, Razor
- C#, VB.NET
- RESTful, SOAP
- Entity Framework
- MSSQL, SSRS, Oracle
- AJAX, jQuery
- MS BizTalk Server
- Desktop Applications
- IIS, Deployment
- Windows Server
- Azure DevOps, TFS, Git
- Azure Functions
- Telerik Kendo, DevExpress
- HTML, CSS, JavaScript
- Bootstrap
- CMS, WordPress
- Adobe Photoshop

Languages

- Arabic (Native)
- English (Professional)

- Designed responsive and modern front-end UIs using Bootstrap and Telerik Kendo, enhancing user experience and engagement.
- Diagnosed and resolved bugs and issues through systematic debugging and root cause analysis, ensuring minimal downtime and improved system stability.
- Configured and published applications, services, and databases on Windows Server and IIS, ensuring secure and reliable deployment environments with CI/CD releases.
- Led cross-functional teams using Team Foundation Server (TFS) and Azure DevOps to design and architect scalable software solutions, ensuring alignment with business goals and technical requirements.
- Managed training programs for new trainees, including orientation, skill assessment, and mentorship, fostering a culture of continuous learning and professional growth within the team.
- Creating bid technical proposals that include system architecture design, recommended technology stack, technical assumptions, resource allocation, estimated timelines, and solution components to ensure well-structured and feasible project plans.
- Developed and maintained BizTalk Server solutions, including orchestrations, maps, pipelines, and schemas to support enterprise integration scenarios.
- Conducted technical interviews for software engineering candidates, assessing their technical skills, problem-solving approach, and cultural fit within the team.
- Worked on multiple freelance projects, delivering custom software solutions including integration with payment providers.
